OUR MANIFESTO

PARENTHOOD ISN'T PERFECT.
IT'S REAL.

IT'S THE EARLY MORNINGS,
THE UNEXPECTED SPILLS,
THE BIG FEELINGS,
AND THE TINY BREAKTHROUGHS.

THE FIRST STEPS, FIRST LAUGHS,
FIRST "I DID IT MYSELF".
THE MOMENTS YOU PLAN FOR,
AND THE ONES THAT SURPRISE YOU.

LIFE IS UNPREDICTABLE.
WE'RE HERE TO MAKE EACH NEW BEGINNING
LIGHTER, SMOOTHER,
AND A LITTLE MORE JOYFUL.

WHERE LIFE HAPPENS

WE ARE LÄSSIG

Founded as a family business in 2006, LÄSSIG has grown into an internationally successful brand with strong roots and a clear purpose. What started with Claudia and Stefan Lässig has evolved into a dynamic team of family members and creative minds who continue to grow and shape the brand together.

At LÄSSIG, we believe life isn't about perfect moments. It's about the real ones. We grow with families through every first, every adventure, every challenge, and all the wonderfully unpredictable moments in between. Because family life isn't perfect. It's real. And that's exactly what makes it special.

This belief shapes everything we do. Driven by innovation, responsibility, and a deep commitment to sustainability, we create products that combine thoughtful design, practical functionality, and lasting quality. We believe good design should simplify, not complicate – making everyday family life feel lighter, easier, and a little more beautiful.

Our values are the foundation of everything we do as a team, and as a brand. They inspire us to create products with sustainable materials, innovative features, and timeless design while taking social and environmental responsibility seriously.

Because the best memories aren't planned. They happen.
And we'll be there for every one of them.

LÄSSIG. Where Life Happens.

SUSTAINABILITY

Every living being on our planet is important and valuable, as are our natural resources. That is why treating people, animals, and nature with care and respect is at the heart of everything we do.

The entire LÄSSIG team is committed to social and environmental responsibility, guided by ethical principles and a passion for creating products that combine longevity, quality, and thoughtful design. We believe the most sustainable product is one that is made to last and loved for years to come.

Beyond our core business, LÄSSIG actively supports numerous social and environmental projects, helping to create a positive impact beyond our own operations.

Our Compliance Guide reflects our commitment to social responsibility, environmental awareness, and the fair treatment of employees, customers, consumers, suppliers, and business partners. We maintain close relationships with all of our manufacturing partners and regularly visit production sites to ensure transparency, quality, and responsible working conditions.

Sustainability is a continuous journey. Across our entire product range, we strive to make production processes as socially and environmentally responsible as possible. To support this commitment, we have implemented a certified environmental management system in accordance with DIN EN ISO 14001, ensuring transparency and continuous improvement. We also prioritize resource-efficient and recycled materials in both our products and packaging.

For us, sustainability is not a trend — it is a long-term responsibility that shapes every decision we make.

By using recycled materials and innovative processes, we are contributing to the circular economy and the conservation of resources. For example, many LÄSSIG products are made from waste plastic (e.g. disposable bottles and production waste) that has been recycled and processed into new material.

MATERIAL

RECYCLED CLAIM STANDARD (RCS), GLOBAL RECYCLED STANDARD (GRS)

Both standards are from Textile Exchange and international accepted standards for recycled materials included their entire supply chain. It contains recycled material from the source to the final product and ensures that certified products meet high social, environmental and chemical criteria.

FSC™

The Forest Stewardship Council (FSC™) is committed to the responsible management of the world's forests, helping to protect them and the people and animals who live there. The 100 % FSC seal identifies products that contain only materials from FSC™ certified forests.

WASTE2WEAR

Waste2Wear creates environmentally friendly fabrics out of post-consumer recycled plastic bottles in a fully certified and transparent value chain. It is the dedicated aim of this brand to reduce plastic waste by creating innovative textiles for new quality products. Emphasis is placed on reducing environmental impact and minimizing resource consumption.

RADDIS®

LÄSSIG has joined with Raddis® in sourcing cotton from sustainable and regenerative cultivation in southern India. The project contributes to the active restoration, development and evolution of the conditions necessary for a promising support of the eco-system, the local economy and the people involved. From day one, the Raddis®System has subscribed to the guidelines of regenerative organic certification.

GOTS

The Global Organic Textile Standard (GOTS) is recognized as the leading processing standard for textiles made from organic fibers worldwide. It defines high level environmental criteria along the entire supply chain of organic textiles and also requires compliance with social criteria.

OEKO-TEX® STANDARD 100

The OEKO-TEX® STANDARD 100 identifies textiles tested for harmful substances in accordance with the strict requirements of independent OEKO-TEX® institutes. Many of LÄSSIG's textile products are certified according to the OEKO-TEX® STANDARD 100.

OEKO-TEX® MADE IN GREEN

The OEKO-TEX® MADE IN GREEN product label identifies textile products made from materials tested for harmful substances and also focuses on environmentally friendly production, social responsibility and transparent supply chains.

TENCEL™ LYOCELL

Lyocell fibres from the TENCEL™ brand are particularly breathable and moisture absorbent. They are produced from sustainably sourced, natural wood. The innovative and environmentally friendly production process sets new standards thanks to excellent resource efficiency and a lower environmental impact.

PETA-APPROVED VEGAN

The "PETA-Approved Vegan" label denotes vegan fashion and accessories that contain no animal components. The label is licensed by the organization PETA.org.

IGR

The seal of quality from the IGR Institute for Health and Ergonomics e.V. certifies products that adapt optimally to the body and are designed back-friendly. The tests are performed by an expert panel of doctors, physiotherapists and biomechanists and are based on the DIN 33419 and EN ISO 15537 standards as well as guidelines for ergonomics and occupational safety.

Please note our products marked as certified
